

Catalina State Park Buffel Slayers

Buffelgrass is a highly flammable invasive species that threatens the native plants of the Sonoran Desert including saguaros. Help us rid Catalina State Park of this "fire-breathing dragon".

When: Sat. March 7, 2015, 8am -12noon

Where: Equestrian Center Parking Lot (free admission to park for all 'slayers')

Bring: Water, hat, sturdy footwear, sunscreen, snacks, tools-opt. (picks, trenchers), gloves

For more information: www.buffelgrass.org
