

## Catalina State Park Buffel Slayers

Buffelgrass is a highly flammable invasive species that threatens the native plants of the Sonoran Desert including saguaros. Help us rid Catalina State Park of this “fire-breathing dragon”.

**When:** Sat. Nov. 7, 2015, 7:30-11:30am

**Where:** Equestrian Center Parking Lot (free admission to park for all ‘slayers’)

**Bring:** Water, hat, sturdy footwear, sunscreen, snacks, tools (opt), gloves

**For more information:** Patty Estes 742-6131, [sonorandesert.org](http://sonorandesert.org), or [buffelgrass.org](http://buffelgrass.org)
